Nomination of Prof. Ravi Naidu for IUSS President

Dear Prof. Horn

It is our great pleasure and privilege to nominate Laureate Professor Ravi Naidu, University of Newcastle, Callaghan NSW, Australia as a candidate for the IUSS President. We have known Ravi for many decades and have followed his career and scientific achievements over the years. Ravi has made a very significant and outstanding contribution to the field of soil science and especially in developing advanced innovative and promising technologies for the remediation of contaminated and degraded soils at regional, national and international levels. His scientific contributions have been recognised by many universities and research organizations by awarding him and re

We feel that Prof. Ravi Naidu is a very good candidate for the position and he will be able to spread the vision of IUSS to large scientific communities and public bodies nationally and internationally and hence we strongly recommend to the the selection committee of IUSS to select him as a candidate for the IUSS President position.

Regards

Bal Ram Singh
